Systems & Software Expands Their Presence in California by Signing the City of San Buenaventura

San Buenaventura, CA & Williston, VT, March 3, 2009 – Harris Computer Systems (Harris), a subsidiary of Constellation Software Inc. (TSX: CSU) is pleased to announce that the City of San Buenaventura (Ventura) has selected Systems & Software (S&S), a wholly owned subsidiary of Harris, to implement its enQuesta 3e solution.

Ventura, a city of approximately 106,000 people, was seeking a proven CIS solution that would improve daily customer service functions, work responsibilities, reporting, billing and rate application. In addition, the new solution had to offer seamless integration to their newly implemented Enterprise Resource Planning (ERP) system.

Ventura chose S&S's solution, enQuesta 3e, to attain these goals. The enQuesta CIS solution will be implemented along with the enQuesta self-service offering, WebConnect. "We are confident that Ventura will immediately realize improvements in the efficiency and ease of use in the completion of their daily tasks," says Dave Decker, General Manager, Systems & Software. "enQuesta will also assist in providing an integrated approach to managing and optimizing its customer service operations."

Systems & Software will be providing a fast track implementation project with a go-live planned for later this year. S&S is confident it can provide the same record of continued success they have demonstrated with many of their other California customers.

About Systems & Software, Inc.

Since 1973, Systems & Software has been a top-rated CIS provider to municipal and investor-owned (IOU) electric, water and gas utilities. With an unrivalled track record of success, the company's web-based enQuesta software drives advanced business performance including utility billing, revenue management, mobile workforce management, GIS integration, electronic bill presentment & payment (EBPP), automated meter integration (AMI/MDM), time-of-use (TOU) billing, asset management/work management integration, customer self-service web portal, business intelligence and reporting. Based on service-oriented architecture (SOA), enQuesta is specifically designed for utilities and is proven to increase efficiencies and revenues, as well as enhance customer service. For more information about Systems & Software, and enQuesta, please visit www.ssiwt.com.

About Harris

Harris is a leading provider of utility customer information systems (CIS), billing, and financial management software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to public power and water markets as well as all levels of local government throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time.
